-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status of the Claims

Claims 1-12,25,27,28,31-47 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Claim 13 was amended to include an already shaped device.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 13-24,26,29 and 30 are rejected under 35 U.S.C. 102(e) as being anticipated by Ichinohe (6878792).

Ichinohe discloses a process for producing a device capable of absorbing blue light comprising exposing the device with free reactive groups to a solution containing one or more reactive dyes and one or more catalysts. Note, applicant's specification; applicant defines a "semi-finished device" as silicone IOL having free hydrosilyl groups.

Claim 14, see column 4.

Claims 15 and 16, see columns 1 and 3.

Claims 17-19, see column 7.

Claims 20-24, see column 8.

Art Unit: 3738

Claim 26, see column 1.

Claims 29 and 30, see columns 7 and 9.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-24,26,29 and 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Sheets Jr. et al (6187042).

Sheets, Jr. et al discloses a process for producing a device capable of absorbing blue light comprising exposing the device with free reactive groups to a solution containing one or more reactive dyes and one or more catalysts.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-24,26,29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ichinohe (6878792) in view of Sheets Jr. et al (6187042).

Art Unit: 3738

While Ichinohe does not clearly disclose a coating applied to a device, Sheets, Jr. et al teaches that blue light absorbing dyes and catalysts may be applied to the surface of a shaped device. If not inherent in Ichinohe to apply blue light absorbing dyes and catalysts as a coating to a shaped silicone device would have been obvious to one with ordinary skill in the art from the teachings of Sheet Jr. et al as an alternative method for producing a shaped device having blue light absorbing properties.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3738

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
